

WHAT IS A WASTE TIRE FACILITY?

A WASTE TIRE FACILITY IS A LOCATION WHICH ACCUMULATES WASTE TIRES FOR DISPOSAL, PROCESSING, RESALE, OR STORAGE. A FACILITY THAT HAS LESS THAN 500 STORED WASTE TIRES DOES NOT NEED A PERMIT.

Tire Dealers and Auto Dismantlers are excluded from a permit if the waste tires stored on the premises are less than 90 days and the amount of waste tires stored does not exceed 1,500 or the facility is a retreader with fewer than 3,000 tires on the premises.

Facilities storing *more than 500 tires* must comply with the following standards:

Fire prevention

Site access

Site security

Vector control

Storage

The California Code of Regulations 17351 through 17354 details the standard specifications.

A **Minor Facility** is a location that accumulates **500 to 5,000** waste tires.

A **Major Facility** is a location that accumulates **5,000 or more** waste tires.

WHO IS A WASTE TIRE GENERATOR?

A WASTE TIRE GENERATOR IS ANY PERSON, BUSINESS, OR AGENCY THAT GENERATES 10 OR MORE WASTE TIRES.

AS A GENERATOR YOU ARE REQUIRED TO:

- Release waste tires only to registered tire haulers and use Comprehensive Trip Log (CTL) forms (if more than 9 tires).
- Obtain and use a Tire Program Identification Number from CalRecycle at no cost.
- Verify CTL forms are complete and correct by *initialing*
- Retain copies of the CTL on site for 3 years.
- Generators must post the TPID certificate in a conspicuous place.

WHAT IS A TPID NUMBER?

The Tire Program Identification (TPID) number is a unique identification number assigned by CalRecycle to haulers, generators and end use facilities.

The TPID number is used to track each participant's activity in waste tire manifest transactions and to identify specific locations where waste tires are generated or delivered/disposed.

Haulers receive their TPID number when registering with CalRecycle.

CALL CALRECYCLE AT (866) 896-0600 TO RECEIVE A TPID NUMBER.

WHO IS A WASTE TIRE HAULER?

A WASTE TIRE HAULER IS ANY PERSON WHO TRANSPORTS 10 OR MORE WASTE TIRES.

AS A HAULER YOU ARE REQUIRED TO:

- Register annually with CalRecycle and keep original registration certificate in the registered vehicle.
- Have a registration decal properly applied on the passenger side front windshield of hauling vehicle.

- Transport the used or waste tires to a permitted facility, landfill or CalRecycle authorized end use facility.
- Post a \$10,000 bond.
- Have a CTL receipt in possession while transporting waste tires.
- Leave a copy of the CTL receipt with the waste generator or end use facility.

There are exemptions for haulers that include agricultural purposes and common carriers.

NON-COMPLIANCE CAN RESULT IN PENALTIES UP TO \$25,000 FOR EACH DAY OF VIOLATION.

BACKGROUND

In 1990, the *CALIFORNIA INTEGRATED WASTE MANAGEMENT BOARD (CIWMB)* enacted requirements for disposal and storage of waste and used tires. Beginning July 2004, CIWMB turned over a portion of the program to *PLACER COUNTY ENVIRONMENTAL HEALTH (PCEH)*. The County is responsible for the identification, investigation, and enforcement of waste tire generators, haulers, and facilities. In January of 2010, CIWMB was reorganized and began operating under a new name - Department of Resources Recycling and Recovery (CalRecycle).

PCEH is adhering to the laws and regulations governing waste tires:

- **Public Resources Code** (Division 30, Part 3, Chapters 16 and 19)
- **California Code of Regulations** (Titles 14, Division 7, Part 3)

WHO PARTICIPATES IN THE PROGRAM?

The Waste Tire Program applies to any person that generates, transports, or accepts used and waste tires.

A **waste tire** is a tire that is no longer mounted on a vehicle and is no longer suitable for its original purpose due to wear, damage, or defect.

A **used tire** is a tire that is no longer mounted to a vehicle but is still suitable for use as a vehicle tire.

CONTACT INFORMATION

FOR INFORMATION OR TO FILE A COMPLAINT:

Placer County Environmental
Health Department
(530) 745-2300
