Revised Draft EIR, page 3-6, under “Placer County Zoning Ordinance”: The following underlined text was inadvertently left out the description of existing zoning designations that will be rezoned to SPL:

- Placer County Zoning Ordinance:** Rezoning from the existing F-B-X-DR (Farming, Combining Development Reserve, Combining 80-acre minimum parcel size), F-DR (Farming, Combining Development Reserve), IN-UP-DR (Industrial, Combining Limited Use [Use Permit], Combining Development Reserve), RA-B-X-DR (Residential Agricultural, Combining Development Reserve, 10-acre minimum parcel size), C1-DC-DR (Neighborhood Commercial, Combining Design Scenic Corridor, Combining Development Reserve); O (Open Space); OPD=2 (Open Space, Combining Planned Residential Development = 2 dwelling units per acre) and OPD=1 (Open Space, Combining Planned Residential Development = 1 dwelling unit per acre) zoning classifications to a new zone district, “Specific Plan” (SPL), with the exception of the SPA, which will remain in its current zoning classifications. The SPL zone will be combined with the Specific Plan to function as the zoning text and map for the Placer Vineyards Specific Plan area (with the exception of the SPA). It is anticipated that the actual land use designation will be identified for each property in the Specific Plan area (e.g., SPL [PVSP-LDR]).

These minor General Plan and Zoning Ordinance-related descriptive changes have no bearing on the environmental analysis contained in the Revised Draft EIR and do not alter any of the conclusions of the Revised Draft EIR of Partially Recirculated Revised Draft EIR.
